If you have been charged a deposit for an unlabeled or non-deposit container return it to the store where it was purchased or call the Department of Health.

SEPARATE by material type

Mixed Metal, such as coffee and juice containers should also be separated.

Container Counts

By law you may request the recycler hand count loads up to 50 containers. The recycler may weigh larger loads using the following segregated rates provided by the State Department of Health.

CONTAINER TYPE	# OF CONTAINERS PER POUND
Aluminum	30
Glass	2.4
Plastic	16.6
Bi-metal	8

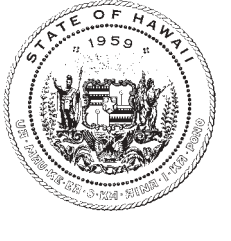

Large Loads

The Recycler may redirect large loads to a main processing facility.

This allows sites to accept a greater amount of residential loads and helps reduce wait times.

It's good for you. It's good for the 'āina.
